

**First Workshop on Green Nanotechnology, Molecular Imaging, Theranostics,  
and Bio-Inspiration**

**Auditório Rômulo Ribeiro Pieroni  
7 - 8 December, 2015  
São Paulo - SP, Brazil**

**Jointly organized by:**

Institute for Energy and Nuclear Research (IPEN/CNEN-SP), Instituto do Cancer do Estado de Sao Paulo (ICESP) and the University of Missouri (MU).

**Sponsored by:**

- Science without borders program - Conselho Nacional de Desenvolvimento Científico e Tecnológico - CNPq (Brasil)
- Institute for Energy and Nuclear Research (IPEN)
- University of Missouri (MU)

**Language: English/Portuguese**

**Workshop overview/Welcome note/**

IPEN and University of Missouri are pleased to present the Workshop on Green Nanotechnology, Molecular Imaging, Therapy and Bio-Inspiration, focusing on Theranostics. We are honored to welcome Professor Kattesh V. Katti, from University of Missouri as our workshop co-chairman. He will also be giving one of the Keynote Presentations at the meeting in conjunction with our distinguished panel of guests. Attending this workshop will provide you with a detailed overview of the current research and technological advances in this continually developing field.

**Topics:**

*Biomedical applications of  
green nanotechnology  
New nanomaterials for  
Molecular Imaging  
Theranostics  
Tumor Biology  
New Radiopharmaceutics*

**We hope you can join us!! Register now at:**

**Workshop co-chairs:**

Prof. Dr. Ademar B. Lugao IPEN, Brazil.  
Prof. Dr. Kattesh Katti, UM, USA.  
Prof. Dr. Roger Chammas, USP, Brazil.

**Local Organizers:**

Prof. Dr. Ademar B. Lugão, IPEN, Brazil  
Prof. Dr. Koiti Araki, IQ-USP, Brazil.  
Dr. Gustavo H. C. Varca, IPEN, Brazil.

Ministério da Ciência,  
Tecnologia e Inovação
